Digital Transformation

Enhanced Mobility

Inclusion and Diversity

The NEOLAIa European Universities Alliance unites young, dynamic universities across nine European countries to promote a stronger, more inclusive Europe.

NEOLAIa is driven by three key pillars:

- Digital Transformation
- Inclusion and Diversity
- Enhanced Mobility

Through **Digital Transformation**, NEOLAIa drives sustainable connectivity and socio-economic growth on a regional scale, empowering communities to thrive in an increasingly digital world. The pillar of **Inclusion and Diversity** is dedicated to advancing diversity and inclusion policies, creating positive impacts across European populations and supporting underrepresented groups. **Enhanced Mobility** encourages cultural exchange and social inclusiveness, fostering a shared European identity and helping to counter populist tensions. Together, these pillars strengthen NEOLAIa's commitment to a cohesive, resilient, and progressive Europe.

NEOLAIa Alliance 1st International Symposium on University Language Policies

From October 16 to 18, 2024, the University of Tours hosted the first International NEOLAIa Symposium on Multilingualism and Intercultural Education in European Higher Education and Research Policies. Held at Mame, the city of creation and innovation, this event brought together a hundred participants, including experts in language policies, multilingual and intercultural education, partner university members, and students.
